

- 1 Raw water inlet
- 2 Raw water pump
- 3 Turbocharger, liquid-cooled
- 4 Bleeder screw on turbocharger (only for initial filling of coolant or refilling)
- 5 Exhaust manifold, liquid-cooled
- 6 Intercooler
- 7 Coolant temperature measuring point
- 8 Engine expansion tank bleeder pipe with construction
- 9 Expansion tank
- 10 Positive pressure / negative pressure valve
- 11 Coolant filler neck
- 12 Heat exchanger, engine coolant / raw-water
- 13 Thermostat (open)
- 14 Water pump housing with integrated thermostat housing
- 15 Raw water outlet
- 16 Heater feed and return system
- 17 Crankcase
- 18 Engine oil cooler
- 19 Gearbox oil cooler
